Education

2019
Bachelor in English
Scott Christian College

2021
Masters in English
Manonmaniyam Sundarnath University

Expertise

- JAVASCRIPT
- ReactJS
- HTML & CSS
- webflow
- NextJS
- Git & Github
- SCSS & SASS

Courses

Python Course in PYSpider , BANGALURE

Experience

1 Year of Internship

Prenetics Innovation Lab

Front-end Developer

Key responsibilities :
- Utilized ReactJS and Next.js framework to develop responsive and efficient web applications.
- Demonstrated a deep understanding of web development technologies and best practices in frontend development.
- Acquired valuable insights into the work culture, emphasizing effective communication, collaboration, and adherence to project timelines.
- Successfully contributed to team-based projects, effectively coordinating tasks, sharing knowledge, and delivering high-quality results.
- Took on a significant role in a project, overseeing the entire frontend development for a project with a substantial scale of 20 million, showcasing my ability to handle complex tasks and deliver results.

Projects

20Million

This project serves as a comprehensive display of the courses being undertaken and the concurrent projects in progress.

Tech Stack :   HTML , CSS , ReactJS , NEXTJS

1. Built with the Next.js framework: The project leverages the Next.js framework, known for its efficient server rendering and seamless client-side routing, to create a responsive and dynamic web application.
2. Styled with SCSS: The project's user interface is designed and styled using SCSS (Sass), a popular CSS preprocessor that enhances maintainability and flexibility in styling, ensuring a visually appealing and consistent design.

Guruvel Assosiate

I've created a website that showcases both exterior and interior work, providing in-depth information and visuals for a client.

Tech Stack :   HTML , SCSS , ReactJS , NEXTJS

1. Developed with the Next.js framework: The project is built on the Next.js framework, which offers fast server rendering and client-side routing for a seamless and responsive website experience.
2. Unique and captivating styling and animations: The website stands out with its distinctive and visually engaging styling, setting it apart from standard websites. It incorporates captivating animations that enhance the overall user experience.

SkyCare logestics

"I've utilized Next.js to incorporate a 3D model into a webpage, crafting an immersive and interactive experience.

Tech Stack :   HTML , Tailwind , ReactJS , NEXTJS , ThreeJS , Blender

1. Utilizing Three.js, Blender, and Next.js, I crafted the Skycare project, resulting in a stunning website.
2. Additionally, I integrated a form capable of capturing user input and seamlessly sending it via Nodemailer to designated email addresses.
